Coming soon ...

Gigabit Ethernet Interface for ELB-VME-VFB6

VME-RTM-GBE

Preliminary Key Properties

- VME rear transition module (RTM)
 - Using P2 connector
 - All 3 extension ports remain available
- Network interface
 - Full IP integration (IPv4)
 - TCP/UDP
 - 100 MByte/s sustained data rate
 - PTPv2 (real-time synchronization)
- FPGA interface
 - FIFO and SRAM interface (selectable)
 - Easy to use, interface encapsulated

*Speech is silver,
GBE is golden!*
